

Cass County Rural Water District #1 is currently accepting applications for a motivated, self-starting individual to fill our current Manager of Operations opening. This position plays a key role in directing and overseeing the activities of the Water District, which includes technical services, water operations, construction, and maintenance. The ideal candidate should have several years of leadership experience at a water utility, strong team leadership, contract management, decision-making skills, and the ability to manage vendors and coordinate with other agencies or organizations.

This position requires managing a staff of 4-6 employees, reporting to the Board of Directors on a monthly basis, ensuring compliance with applicable laws, ordinances, and regulations as well as District standards relating to quality, cost-efficiency, and safety. The successful candidate will hold or be required to obtain a Grade 4 water operator license within 6 months and a Grade 3 water operator license after 3 years.

We offer a competitive benefits package to include paid vacation, holidays, and insurance coverage along with a competitive 401(k) retirement program. Compensation for this position will be based on experience and qualifications which will range from a base of 60k to 80k for a highly qualified individual. Cass County Rural Water District #1 offers an exciting opportunity for the right candidate to promote operational excellence and have a direct impact on the success of the District. Interested candidates should contact the Water District at 402-235-3077 to obtain an application. Equal opportunity employer.
